

Dodecyl Dimethyl Betaine (BS-12)

Other Name: Dodecyl Dimethyl Betaine; Betaines, C12-14-alkyldimethyl

INCI name:

CAS No.: 683-10-3

EINECS (EC) No.:

Molecular Formula:

Characteristics:

1, Appearance: colorless to light yellow transpare.

2, Amphipathic surfactant BS-12

Application:

1, With good performance of detergency, sterilization and anti-static,

2, Used as cosmetic raw materials, detergent raw material.

3, Betaine BS- 12 can be used as emulsifier of cosmetics and personal care products.

Specification

Ingredient: Dodecyl dimethyl betaine

Appearance: Colorless to light yellow transparent liquid

Active matter, %: 30 ± 2

Free amine, %: 1.0 max.

Sodium oxide content, %: 8 max.

PH value (5% aq. solution, 25°C): 6.0 ~ 8.0

Packing

200kg/plastic drum, 16mt/fcl (N.W.), 16.8mt/fcl (G.W.)

Storage: Stored in dry, cool and ventilated place, kept away from sunshine and rain.
